

Group Project Meeting Notes

Please fill out the table below with the information requested. Discussion points can be general and bulleted, just give an idea of the topics discussed during the meeting.

Group #:

Meeting Date	4/23/2025
Group Members In Attendance	Matthew Schneider Brad Wilfong Abel Woldemichael
Group Members Missing	N/A
Discussion Points	We discussed several tasks that need to be completed, including working on the user interface (UI). We need to ensure that everything aligns as planned, and we are considering some changes to the color theme. Additionally, we trouble-shooted an issue with MongoDB, which has been causing errors and crashing the app. We are also planning to add an upload button for users to upload videos. Lastly, we had a conversation about the account details, considering the feasibility of having them ready on time and discussing what content will be included on that page.
